**SINGAPORE – 10 August 2010 – Fuxing China Group Limited** (“Fuxing China” or the “Group”), one of the leading vertically-integrated zipper manufacturers and 2<sup>nd</sup> largest in the PRC, is continuing to enjoy strong local and export sales. The Group has delivered another set of good results for the three months ended 30 June 2010 (“2Q2010”), a trend which is expected

to continue for the rest of the current financial year. The Group is also gearing up its production for a new product – ***Super Durable Zipper*** – which could generate a higher profit margin.

Due to the strong demand for its zipper products, the Group's 2Q2010 net profit surged 205% to RMB 14.9 million on a near 70% increase in revenue to RMB 204.3 million. The strong 2Q2010 performance boosted the Group's 1H2010 net profit by 148% to RMB 25.8 million and its revenue by 55% to RMB 312.4 million.

During the 2Q2010, sale of the Group's Zipper segment products comprising finished zippers, zipper chains and zipper sliders amounted to RMB 127.1 million compared to RMB 70.7 million in prior period. This represented an increase of 80%, as both local and export sales grew healthily as a result of the recovering economies in the PRC and overseas markets. Trading operations contributed to the Group's revenue of RMB 77.0 million compared to RMB 45.8 million in the prior period. Revenue from its Knitting Wool segment fell to RMB 0.3 million or 94% following the discontinuation of this operation during the current quarter.

The Group's **gross profit** increased by 99% to RMB 36.6 million in 2Q2010 due to its better pricing which has also generated a higher gross margin. Overall, Group's gross margin increased by 2.7 pts to 17.9% due largely to the continued increase in gross profit margin of the zipper business which reached **27.8%** in 2Q2010.

Mr Hong Qingliang (洪清凉), Executive Chairman/CEO of Fuxing China commented, *“Demand has been strong in this quarter, and the order book for the Group is now into October. Although the Group has increased wage rates for its workers, labor supply is still tight. The Group's factories are recruiting workers to meet the increased demand.”*

#### **Outlook**

*“The Group will continue to work towards improving its operational efficiencies by introducing more process automation to tackle the tight labour supply,”* said Chairman Hong.

Chairman Hong announced that the Group has successfully registered a new patent – **Super Durable Zipper** – which the Group has commenced marketing to its customers. *“This product has the potential of replacing metal zippers, as it has a lower production cost and a longer product life. The Group intends to scale up its production with 100 sets of machinery by year-end.”*

The Group will continue to enhance its brand name in the PRC, and one strategy is to attract the best people in the zipper industry to *“work for Fuxing because Fuxing pays the best salaries in the zipper industry.”* Chairman Hong also revealed that the Group is actively exploring its plans of *“investing in businesses within the supply chain of zipper products.”*

With its strong financial strength, and cash and bank deposits of RMB 722.9 million, the Group is indeed in a strong position to execute its strategic plans.
