Note:

<sup>(1)</sup> According to a valuation report by Jones Lang LaSalle Sallmanns Limited who was commissioned to do a valuation of the target companies.

By acquiring these three target companies, the Group will be able to enhance its competitive advantage in the industry, capturing operational synergies as these value-add services are brought in-house. The Group believes that PRC government policy relating to the environmental protection is likely to get more stringent. These services are strictly regulated due to its pollutive nature and the Group understands that the government will

limit and restrict the issuance of new business licenses in the dyeing and electroplating services.

Commenting on the acquisitions, Mr Hong Qing Liang (洪清凉), Executive Chairman and Chief Executive Officer said, *“We are pleased to see the signing of the acquisition agreements after more than a year of discussion and negotiation. The acquisitions are in line with our long-term growth strategy as we seek vertical integration and the synergy achieved by the three companies. This will make us operationally stronger, and also allow our Group to capture viable revenue streams and expand our profit base.”*

The acquisitions will be funded by the Group’s cash reserves. As each of the acquisitions is a major transaction, it shall be subject to the Group obtaining shareholders’ approval at a special general meeting to be convened by the Group. As at 30 September 2010, the Group’s cash and deposit position amounted to RMB 716.4 million.
