Note:

¹

Restructuring reserve:

This represents the difference between the nominal value of shares issued by the Company in exchange for the nominal value of shares and capital reserve of subsidiaries acquired which is accounted for under “merger accounting”.

²

Equity reserve:

This reserve represents the value of the unexercised equity component of convertible notes issued by the Group in 2009.

- 1(d)(ii) **Details of any changes in the company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on.**

State also the number of shares that may be issued on conversion of all the outstanding convertibles, as well as the number of shares held as treasury shares, if any, against the total number of issued shares excluding treasury shares of the issuer, as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year.

Share Buy-back

During the period ended 31 December 2012, there was no share acquired. There were a total of 13,886,000 treasury shares acquired in FY2009 and FY2010.

- 1(d)(iii) **To show the total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediate preceding year.**

	31 December 2012	31 December 2011
Total number of issued shares excluding treasury shares	860,272,000	860,272,000

There were a total of 13,886,000 treasury shares as 31 December 2012.

- 1(d)(iv) **A statement showing all sales, transfers, disposal, cancellation and/or use of treasury shares as at the end of the current financial period reported on.**

	Treasury shares
Total number of shares as at 1 January 2012	13,886,000
Purchases of shares during the year	-
Total number of shares as at 31 December 2012	13,886,000

There were no sales, transfers, disposal, cancellation and/or use of treasury shares as at 31 December 2012.

2. **Whether the figures have been audited or reviewed and in accordance with which auditing standard or practice.**

The figures have not been audited or reviewed by the auditors.

3. **Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).**

Not applicable.

4. **Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

The same accounting policies and methods of computation adopted in the most recently audited financial statements for the financial year ended 31 December 2011 have been applied in the preparation for the financial statements for the year ended 31 December 2012.

5. **If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

The adoption of the new and revised FRS and INT FRS does not have any material financial impact on the Group's and Company's financial statements for the current year.

6. Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.

Earnings per ordinary share of the group, after deducting any provision for preference dividends (in cents):	Group		Group	
	3 months ended 31/12/2012	3 months ended 31/12/2011	Year ended 31/12/2012	Year ended 31/12/2011
(a) Basic and	(16.6)	(4.2)	(20.1)	0.5
(b) On a fully diluted basis	(16.6)	(4.2)	(20.1)	0.5

Note: Basic earnings per share is computed based on weighted average number of shares in issue in 2012:860,272,000 ordinary shares (2011:860,272,000).

For the financial year ended 31 December 2011 and 2012, the basic and diluted earnings per share of the Group are the same as there were no potential diluting ordinary shares outstanding as at 31 December 2011 and 2012.

7. Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares excluding treasury shares of the issuer at the end of the:

- (a) current financial period reported on; and
(b) immediately preceding financial year.

	Group		Company	
	31/12/2012	31/12/2011	31/12/2012	31/12/2011
Net asset value per ordinary share based on issued share capital at the end of the period/year (in RMB): (Number of ordinary shares in issue as at 31/12/2012: 860,272,000 (31/12/2011: 860,272,000)	1.11	1.31	0.95	0.96

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:

- (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
- (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

NM: Not Meaningful

FY2012 vs. FY2011

Revenue

The Group's revenue decreased by RMB 106.7 million (or 16%) to RMB 568.7 million. The decrease in revenue was due mainly to the decrease in the sales of the Zipper Chain (RMB 41.8 million), the Zipper Slider (RMB 51.3 million) (collectively referred as the "Zippers segment") and the Trading segment (RMB 23.1 million). This was partially offset by the increase in revenue contributions from the newly acquired processing operations namely Fulong Zipper and Weaving Co., Ltd, Jinjiang ("Fulong"), Jinjiang Jianxin Weaving Co., Ltd ("Jianxin") and Jinjiang Fuxin Electroplating Co., Ltd ("Fuxin") (totaling RMB 16.3 million) (collectively referred as the 'Processing segment').

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zippers segment.

The decrease in revenue from the Zipper segment was attributable to a deteriorating market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had led to the Group reducing its selling prices to retain customers' orders.

The Group's trading segment relates to the sourcing and buying of certain raw materials as per customers' requirements. The spread of profit margin and all purchases are based on confirmed sales, i.e. the Group does not hold any inventories. As such, the volume of trading depends on the opportunities available so as the profitability and price movements which are dependent on customers' demand for raw materials. The decrease in revenue from the Trading segment was due to a decrease in sales orders from customers during FY2012.

Gross Profit and Gross Profit Margin

The Group's gross profit decreased by RMB 102.8 million (or 65%) to RMB 54.7 million. The decrease in gross profit was attributable to the reduction in selling prices to retain customers' orders. Costs of production however remained at the same level as FY2011.

Average gross profit margin decreased by 13.7 percentage points to 9.6% due to the decrease in gross profit margin from the Zipper segment and Processing segment in FY2012. This was attributable to the same reasons explained above.

Other income and other expenses

Other income comprises foreign exchange gain, gain from fair valuation of investment property, reimbursement income for cancellation of disposal of investment properties, and rental income while other expenses consist mainly of provision for minimum tax contribution expense and compensation for cancellation of disposal of investment properties. The net expenses increase was due mainly to the provision for minimum tax contribution expense (RMB 65.0 million) while it was offset by increase in gain from fair valuation of investment property (RMB 46.2 million) as well as the foreign exchange gain as a result of the depreciation of RMB against foreign currencies, eg., USD in December 2012.

Provision for minimum tax contribution expenses represented the unavoidable costs in operating of business in Xiamen Island. Under FRS 37 "Provisions, Contingent Liabilities and Contingent Assets" – Onerous contracts and pursuant to the contract signed with the PRC government in relation to the acquisition of the parcel of commercial land in Xiamen Island, the Group is required to pay tax (including valued-add tax, sales tax, and income tax) not less than RMB 10 million in the first 2 years and RMB 15 million in the coming 7 years following the registration of a subsidiary, Xiamen Fuxing Industrial Co. Ltd., in the PRC to hold the said land use right.

Due to the delayed approval of the building and construction permit from the Xiamen's local authorities, the construction of Xiamen headquarter commenced in the late 4Q2012. Income are projected to be generated from the investment properties in FY2016. As such, the Group make a provision for minimum tax contribution expenses representing "unavoidable costs" for 5 years starting from 2011 to 2015, totalling RMB 65 million under FRS37 – Para. 66.

As disclosed in the Company's announcement on 15 September 2012, 1 October 2012 and 4 October 2012, the Company was obliged to pay compensation of HK\$4 million as a mutually agreed settlement amount between the Company and Purchasers, in view of the impasse in negotiations and the fact that both parties were not able to agree upon a mutually acceptable and satisfactory resolution of the legal requisitions or inquiries. However, Mr Hong Qing Liang (CEO) had remitted funds out of his personal bank account to directly settle the full amount of the HK\$4 million compensation and had promised waiving the reimbursement from the Company. As such, the HK\$4 million of compensation expenses and waiver of compensation has been recorded separately in other expenses and other income in compliance with FRS1 – Presentation of financial statement.

Selling and distribution expenses

Selling and distribution expenses increased by RMB 0.9 million (or 12%) to RMB 8.1 million due to higher delivery costs as well as increase in marketing and advertising expenses for promotion of the Group's 3F brands of zippers.

General and administrative expenses

General and administrative expenses increased by RMB 85.9 million to RMB 195.2 million, mainly consists of amortization of intangible assets (RMB 18.2 million), allowance for doubtful debts (RMB 11.4 million), impairment of intangible assets (RMB 80.0 million), Provision for social security contribution (RMB 35.6 million), write down of inventory (RMB 7.7 million), salaries (RMB 12.7 million), depreciation of property, plant and equipments (RMB 9.2 million) and others including insurance, property tax, stamp duty, etc.

The increase in amortization of intangible assets in FY2012 was mainly due to a full year amortization made in FY2012 compared to a few months' amortization in FY2011 arising from the acquisition of the processing subsidiaries in the second half of FY2011. The intangible assets mainly consist of customer base and operating licenses of the 3 subsidiaries which were also acquired by the Group as well as the super durable patents. The amortization periods for the customer base, operating license and super durable patents are 9 years, 21 years and 7 years respectively.

The increase in allowance for doubtful debts was due mainly to the requests from some customers for a longer credit period. These customers are not the Group's major customers.

Impairment of intangible assets represented impairment of goodwill on consolidation attributable to the Processing segment (RMB 80.0 million). The impairment was made due to the decrease in projected revenue and profits in the next five years used in the discounted cashflow as a result of the weak market demand which reduces their recoverable amount (using discounted cash flows) determined using profit forecasts and cash flow projections.

Provision for social security contribution for FY2012 included underprovision of social security contribution in FY2011. The Group have made detailed computation of the provision required for social security contribution for FY2011 and FY2012 to ensure full compliance with the prevailing PRC rules and regulations.

The write down of inventory represented write down as a result of the net realizable value is lower than cost when compared with recent market price.

Finance income and expenses

Finance expenses increased by RMB 1.7 million (or 55%) to RMB 4.8 million. This was attributable to the increase in bank overdrafts, bills payable and short-term loans compared to the previous year. Finance income decreased by RMB 0.5 million to RMB 1.4 million due mainly to a decrease in fixed deposits in FY 2012.

Tax expense

	Group

Tax expense	8,012	32,668	(75)

NM: Not Meaningful

Notes

- ¹ Current tax decreased by RMB 24.3 million or 84% due to a decrease in taxable profit before taxation in FY2012.
- ² On 22 February 2008, the State Administration of Taxation of China issued a circular Caishui 2008 No.001, which states that distribution of dividends from profits accumulated from 1 January 2008, shall be subject to withholding tax on distribution to foreign investors. Accordingly, the Group has provided for deferred tax liabilities on the Group's profit-making PRC subsidiaries' net profit attained from 1 January 2008 onwards. As Jade Star (the PRC's subsidiaries' immediate holding Company) is incorporated in the British Virgin Islands, the applicable withholding tax rate is 10%.
- ³ Deferred tax arising from temporary differences in fair value of investment property and depreciation of property, plant and equipment.

4Q2012 vs. 4Q2011 (3 months)

Revenue

The Group's revenue decreased by RMB 5.7 million (or 3%) to RMB 160.3 million. The decrease in revenue was due mainly to the decrease in the sales of the Zipper Slider segment of RMB 14.2 million and the decrease in the sales of the Processing segment of RMB7.4 million. This was partially offset by the increase in revenue contributions from the Zipper Chain segment of RMB 7.3 million and the Trading segment of RMB 7.7 million.

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zippers segment.

The decrease in revenue from the Zipper slider segment and Processing segment in 4Q2012 was attributable to a deteriorating market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had led to the Group reducing its selling prices to retain customers' orders.

The increase in revenue from Zipper Chain segment was attributable to the increase in quantity sold to both local customers and oversea customers as a result of lower profit margin.

The increase in revenue from the Trading segment was due to a increase in sales orders during 4Q2012.

Gross Profit and Gross Profit Margin

The Group's gross profit decreased by RMB 17.9 million (or 58%) to RMB 13.1 million. The decrease in gross profit was attributable to the reduction in selling prices to increase customers' orders, the production capacity increased by 22 percentage points from 76% in 3Q2012 to 98% in 4Q2012.

Average gross profit margin decreased by 10.5 percentage points to 8.2% due to the decrease in gross profit margin from the Zipper segment in 4Q2012. This was attributable to the same reasons as explained above.

Other income and other expenses

Other income comprises foreign exchange gain, gain from fair valuation of investment property, reimbursement income for cancellation of disposal of investment properties, and rental income while other expenses consist mainly of provision for minimum tax contribution expenses and compensation for cancellation of disposal of investment properties. The net expenses increase was due mainly to the provision for minimum tax contribution expenses (RMB 65.0 million) while it was offset by increase in gain from fair valuation of investment property (RMB 46.2 million) as well as the foreign exchange gain as a result of the depreciation of RMB against foreign currencies, eg., USD in December 2012.

Please refer page 13 for the explanation for compensation for cancellation of disposal of investment properties and also the waiver income for cancellation of disposal of investment properties.

The Group make a provision for minimum tax contribution for this unavoidable costs for 5 years starting from 2011 to 2015, total amount RMB 65 million under FRS37 – Para. 66. This was attributable to the same reasons as explained in page 13.

Selling and distribution expenses

Selling and distribution expenses decreased by RMB 0.3 million (or 13%) to RMB 1.8 million due to decrease in marketing and advertising expenses for promotion resulting from cost saving.

General and administrative expenses

General and administrative expenses increased by RMB 70.8 million (or 116%) to RMB 131.7 million. This was attributable to increase in impairment of intangible assets of RMB 51.5 million in 4Q2012 compared to 4Q2011, the increase in write down of inventory amounted RMB 6.6 million and also the provision for social security contribution amounted RMB 35.6 million.

The significant decrease in depreciation of property, plant and equipment was due mainly to the recalculation of depreciation, which represented the change of 10% residual value to no residual revalue, for the 3 newly acquired subsidiaries in 4Q2011 which affect the charges increase in 4Q2011.

Finance income and expenses

Finance expenses increased by RMB 1.0 million (or 64%) to RMB 2.4 million. This was attributable to the increase in bank overdrafts, bills payable and short-term loans compared to the previous corresponding period. Finance income slightly increased by RMB 0.1 million to RMB 0.4 million due mainly to a cash and bank balance remained at the same level in 4Q2012.

NM: Not Meaningful

Notes

¹ Current tax decreased by RMB 2.5 million or 80% due to a decrease in taxable profit before taxation in 4Q2012.

² On 22 February 2008, the State Administration of Taxation of China issued a circular Caishui 2008 No.001, which states that distribution of dividends from profits accumulated from 1 January 2008, shall be subject to withholding tax on distribution to foreign investors. Accordingly, the Group has provided for deferred tax liabilities on the Group's profit-making PRC subsidiaries' net profit attained from 1 January 2008 onwards. As Jade Star (the PRC's subsidiaries' immediate holding Company) is incorporated in the British Virgin Islands, the applicable withholding tax rate is 10%.

³ Deferred tax arising from temporary differences in fair value of investment property and depreciation of property, plant and equipment.

FINANCIAL POSITION

Non-current assets

As at 31 December 2012, non-current assets amounted to RMB 875.8 million comprising property, plant and equipment, investment property, land use rights, prepayment and intangible assets.

The Group's property, plant and equipment increased by RMB 57.9 million or 19% from RMB 301.2 million to RMB 359.1 million due mainly to purchases of plant and machineries for replacement of old plant and machineries and expansion of zipper production areas and staff dormitory in Jinjiang factory amounting to RMB 98.5 million in FY2012.

The significant increase in investment properties due mainly to the recognition of Xiamen head quarter (HQ) projects as investment properties under FRS40 - "Investment property is property held to earn rentals or for capital appreciation or both." According to the construction plan, the HQ projects will have 25 floors, and most of the properties will be leased out to earn rental income. Therefore, this properties including the land use right should be classified as investment properties under FRS40.

The intangible assets decreased by RMB 98.3 million or 33% from RMB 291.5 million to RMB 193.2 million due to amortization of intangible assets and impairment of goodwill arising from the acquisition of Processing segment in FY 2012 amounting to RMB 80.0 million. The impairments were made due to the decrease in projected revenue and profits in the next five years as a result of the weak market demand which reduces their recoverable amount (using discounted cash flows) determined using profit forecasts and cash flow projections.

The prepayment balance in FY2012 represented the deposits paid for purchases of machinery whereas in FY2011, the prepayment balance of RMB 165.8 million represented mainly the acquisition price of a parcel of land in Xiamen Island for the Group's future administrative headquarters (RMB 160.7 million) as well as deposits paid for purchases of machinery.

Current assets

Current assets increased by RMB 46.2 million or 9% in FY2012. This was due largely to a increase in trade receivables, prepayment to suppliers, bills and other receivables, cash and bank balances which were offset by the decrease in inventories and fixed deposits.

Inventories decreased by RMB 25.3 million to RMB 56.7 million from RMB 82.0 million due to a write down of inventory and increase in quantities sold as a result of the decline in selling price in 4Q2012.

Trade receivables increased by RMB 42.2 million from RMB 142.3 million to RMB 184.5 million due to extension of credit period with some old customers so as to retain their orders.

The increase in prepayments to suppliers was due mainly to the increase in advances made to certain suppliers. The Group made advance payments to these suppliers to secure ready supply of raw materials at competitive prices. It is a usual practice of the Group to make advance payments to suppliers at the beginning of the year to enable the Group to secure the price and supply of raw materials for the whole year. This would enable the Group to enjoy cost savings in the event of raw material price fluctuations.

Fixed deposits, cash and bank balances slightly declined from RMB 255.2 million to RMB 254.2 million due mainly to the payment for completion of production area expansion and advance payment to suppliers which offset by increase in short-term bank loans and increase in usage of bills payables in FY2012.

Current liabilities

Current liabilities increased by RMB 225.9 million or 125% in FY2012. This was mainly attributable to the increase in bills payable to banks, other payables and accruals, short-term bank loans, which was offset by the decrease in trade payables, bank overdraft, amounts due to director and income tax payables.

Trade payables decreased by RMB 3.0 million due mainly to the increase in usage of bills payable in FY2012.

The bills payable to banks increased by RMB 95.0 million due mainly to the subsidiaries successfully obtaining several banking facilities from different banks in order to maintain a better financial position, please refer to page 4 for further information.

The other payables and accruals increased by RMB 95.2 million to RMB 157.2 million was due mainly to the provision of social security contribution amounted RMB 35.6 million, provision for minimum tax contribution amounted RMB 65 million.

Short-term bank loans increased due as the Group obtained a new short-term banking facilities in order to maintain a better financial position, please refer to page 4 for further information.

The decrease in the amount due to a director from RMB5.3 million as at 31 December 2011 to RMB3.1 million as at 31 December 2012 was due mainly to the repayment made in FY2012.

CASH FLOW

Operating activities

Net cash flows generated from operating activities in FY2012 amounted to RMB 61.1 million compared to RMB 367.2 million in FY2011. The decrease in net cash flows generated in FY2012 were due mainly to the significant operational profit flows in the previous year, increase in trade and other receivables and increase usage of bills payables in FY2012.

Net cash flows generated from operating activities in 4Q2012 amounted to RMB 30.9 million and used in 4Q2011 amounted to RMB 59.9 million. This was due mainly to the increase in usage of bills payables in 4Q2012.

Investing activities

Net cash flows used in investing activities in FY2012 amounted to RMB 105.1 million compared to RMB 577.3 million in FY2011, was due primarily to the acquisition of land use right for the HQ projects and the acquisition of the 3 subsidiaries – Fulong, Jianxin and Fuxin in FY2011.

Financing activities

Net cash flows used in financing activities in FY2012 amounted to RMB 1.5 million compared to RMB 27.0 million in FY2011, as a result of dividend payment to shareholders in FY2011. The net cash flows used in financing activities in 4Q2012 amounted to RMB 5.5 million compared to RMB 1.2 million in 4Q2011, as a result of increase in pledged fixed deposits.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Under paragraph 10 of the Company's 3Q2012 results announcement dated 12 November 2012, the Company had disclosed that slowing down of economic growth in the PRC, uncertainties for export sales, as well as potential cost pressures arising from rising production and labour costs, the Group expected the zipper industry to remain highly challenging and competitive and did not expect the business environment to improve considerably for the rest of 2012.

The performance for 4Q2012 and FY2012 is line with the the Company's commentary in paragraph 10 of the results announcement dated 12 November 2012.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

For the year ended 2012, the Group continued to operate under a highly competitive and challenging environment as the zipper industry in the PRC faces intense competition with lower profit margin. Arising from the challenging and competitive business environment, the Group faced a significant reduction in sales arising from shrinkage in demand for zippers as most of the Group's customers still hold high level of inventories in their warehouses. The average utilization rates of the Group's production facilities in FY2012 for zipper chains and zipper sliders were approximately 79% and 38% respectively.

The Group expects the zipper industry to remain highly challenging and competitive and does not expect the business environment to improve considerably for the next twelve months. The Group expects the slowing economic growth in the PRC, uncertainties for export sales, as well as potential cost pressures arising from rising production costs and labour costs to affect its operating outlook for the next twelve months.

The Group will strive to enhance its operational efficiency of its plants through automation of its production processes, so as to mitigate the impact of weak demand to the Group's gross profit margins. The Group will also continue to exercise tight control on the administrative expenses and strive to lower its production unit cost and inventory holding cost.

11. Dividend

(a) Current Financial Period Reported On

Any dividend declared for the current financial period reported on?

No

(b) Corresponding Period of the Immediately Preceding Financial Year

Any dividend declared for the corresponding period of the immediately preceding financial year?
