9M2013 vs. 9M2012

Revenue

The Group's revenue increased by RMB 45.5 million (or 11%) to RMB 453.9 million. The increase was due mainly to the increase in revenue of the Trading segment (RMB 58.4 million). This was partially offset by the decrease in revenue contributions from the Zipper Chains (RMB 1.1 million) and Zipper Sliders (RMB 8.1 million) (collectively referred as the "Zippers segment") and the Processing segment (RMB 4.7 million)

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zippers segment.

The decrease in revenue from the Zippers segment and the Processing segment in 9M2013 was attributable to a deteriorating market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had led to the Group reducing its selling prices to retain customers' orders. The average selling prices in the Zippers segment had decreased by 7% per kg while sales volume had increased by 6%.

The Group's Trading segment relates to the sourcing and buying of certain raw materials in accordance to customers' requirements. The profit margin and all purchases are based on confirmed sales, i.e. the Group does not hold any inventories. As such, the volume of trading depends on the opportunities available so as the profitability and price movements which are dependent on customers' demand for raw materials. The increase in revenue from the Trading segment was due to an increase in customers' orders during 9M2013.

Gross Profit and Gross Profit Margin

The Group's gross profit decreased by RMB 5.8 million (or 14%) to RMB 35.8 million. The decrease was due mainly to the increases in wages, as a result of an increase in basic salary due to the statutory requirement in the PRC and increase in the cost of raw materials in the Processing segment

Average gross profit margin decreased by 2.3 percentage points to 7.9% due to the decrease in gross profit margin from the Processing segment in 9M2013. This was attributable to the increase in cost of raw materials in the Processing segment.

Other income and other expenses

Other income comprises government subsidies, gain on disposal of a subsidiary, and rental income while other expenses consist mainly of foreign exchange losses. The net income increased was due to the gain on disposal of a subsidiary - Fuxing Textile (Shanghai) Co. Ltd. ("Fuxing Shanghai") which amounted to RMB 11.9 million (please refer to the announcements released to SGX-ST via SGXNet on 5 July 2013 and 29 August 2013 for details). The increase was offset by an increase in foreign exchange loss as a result of the depreciation of USD and SGD against RMB arising from the balance in the Company's bank account.

Selling and distribution expenses

Selling and distribution expenses decreased by RMB 0.3 million (or 6%) to RMB 5.9 million. The decrease was due mainly to a reduction in headcount and decrease in delivery costs following the disposal of Fuxing Shanghai in July 2013.

General and administrative expenses

General and administrative expenses increased by RMB 14.1 million to RMB 77.6 million. The increase was due mainly to an impairment loss on intangible assets from the Processing segment (RMB 19.4 million). This was partially offset by the RMB7.0 million decrease in allowance for doubtful trade receivables from RMB12.9 million to RMB5.9 million.

Impairment of intangible assets represented the impairment of goodwill on consolidation attributable to the Processing segment. The impairment was made due to the decrease in projected revenue and profits for the next five years using the discounted cashflow method as a

result of the weak market demand.

The Group's inventory was written down to RMB 3.0 million as a result of its lower net realizable value when compared with the recent market price.

Finance income and expenses

Finance expenses increased by RMB 3.0 million (or 126%) to RMB 5.4 million. This was attributable to the increase in short-term loans, and bill transactions with banks. Finance income increased by RMB 0.5 million (or 48%) to RMB 1.4 million was due mainly to the increase in cash and bank balance.

Notes

¹ Current tax decreased by RMB 1.6 million or 40% due to a decrease in taxable profit before taxation in 9M2013

² On 22 February 2008, the State Administration of Taxation of China issued a circular Caishui 2008 No.001, which states that distribution of dividends from profits accumulated from 1 January 2008, shall be subject to withholding tax on distribution to foreign investors. Accordingly, the Group has provided for deferred tax liabilities on the Group's profit-making PRC subsidiaries' net profit attained from 1 January 2008 onwards. As Jade Star (the PRC's subsidiaries' immediate holding Company) is incorporated in the British Virgin Islands, the applicable withholding tax rate is 10%.

3Q2013vs. 3Q2012 (3 months)

Revenue

The Group's revenue increased by RMB 13.1 million (or 9%) to RMB 165.3 million. The increase was due mainly to the increase in revenue of the Trading segment (RMB 17.4 million) and the Zipper Chains (RMB 2.9 million). This was partially offset by the decrease in revenue contributions from the Zipper Sliders (RMB 3.5 million) and the Processing segment (RMB 1.9 million).

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zippers segment.

The decrease in revenue from the Zipper Sliders segment and the Processing segment in 3Q2013 was attributable to a deteriorating market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had led to the decrease in demand for zipper sliders and electroplating services.

The increase in revenue from the Trading segment was due to an increase in sales orders from customers during 3Q2013, as a result of lower selling prices.

Gross Profit and Gross Profit Margin

The Group's gross profit increased by RMB 1.1 million (or 8%) to RMB 14.7 million. The increase in gross profit was due mainly to the increase in revenue.

Average gross profit margin retained at the same level of 8.9% when compared to the previous corresponding period.

Other income and other expenses

Other income comprises government subsidies, gain on disposal of a subsidiary, and rental income while other expenses consist mainly of foreign exchange losses. The net income increased was due to the gain on disposal of a subsidiary - Fuxing Textile (Shanghai) Co. Ltd. ("Fuxing Shanghai") which amounted to RMB 11.9 million (please refer to the announcements released to SGX-ST via SGXNet on 5 July 2013 and 29 August 2013 for details). The increase was offset by an increase in foreign exchange loss as a result of the depreciation of USD and SGD against RMB arising from the balance in the Company's bank account.

Selling and distribution expenses

Selling and distribution expenses decreased by RMB 0.5 million (or 22%) to RMB 1.9 million. The decrease was due mainly to a reduction in headcount and decrease in delivery costs following the disposal of Fuxing Shanghai in July 2013.

General and administrative expenses

General and administrative expenses increased by RMB 14.5 million to RMB 39.3 million. The increase was due mainly to an impairment loss on intangible assets from the Processing segment (RMB 19.4 million). This was partially offset by the RMB5.4 million decrease in allowance for doubtful trade receivables from RMB5.6 million to RMB0.2 million.

Impairment of intangible assets represented the impairment of goodwill on consolidation attributable to the Processing segment. The impairment was made due to the decrease in projected revenue and profits for the next five years using the discounted cashflow method as a result of the weak market demand.

Finance income and expenses

Finance expenses increased by RMB 1.3 million (or 191%) to RMB 1.9 million. This was attributable to the increase in short-term loans and bill transactions with banks. Finance income increased by RMB 0.2 million to RMB 0.3 million due mainly to an increase in interest income from the fixed bank deposits balance.

FINANCIAL POSITION

Non-current assets

As at 30 September 2013, non-current assets amounted to RMB 822.4 million comprising property, plant and equipment, investment property, land use rights, intangible assets and prepayments.

The Group's property, plant and equipment amounted to RMB 327.8 million, a decrease of 9% (or RMB 31.3 million) compared to RMB 359.1 million as at 31 December 2012. The decrease was due mainly to depreciation expenses.

The increase in investment property was due to the commencement of the construction of the Company's Xiamen headquarter project in 1Q2013.

The intangible assets decreased by RMB 33.1 million or 17% from RMB 193.2 million to RMB 160.1 million was due to amortization of intangible assets and impairment of goodwill arising from the acquisition of the Processing segment in 9M2012. The impairments were made due to the decrease in projected revenue and profits for the next five years as a result of the weak market demand.

Current assets

As at 30 September 2013, current assets amounted to RMB 668.4 million, an increase of 24% (or RMB 130.8 million) compared to RMB 537.6 million as at 31 December 2012. This was due largely to an increase in inventories, trade and other receivables, prepayments, cash and bank balances

Inventories increased by RMB 22.3 million due to a buildup of inventory as a result of the decline in sales in 3Q2013 while production still continued on an optimal scale to cover its manufacturing overheads. Moreover, the Group holds a 3-month raw materials requirement for purpose of production efficiency compared to 2-month raw materials requirement as at 31 December 2012.

Trade and other receivables increased by RMB 35.7 million due mainly to the increase in trade receivables as a result of increase in revenue from the Zippers segment in September 2013.

The increase in prepayments to suppliers was due mainly to the increase in advances made to certain suppliers. In dealing with the suppliers, the Group will sign supply agreements with various suppliers. The supply agreements include advance payments which will be calculated based on certain percentage of the total contract price in order to secure the supplies. The Group will make the advance payments to the suppliers after the supply agreements have been signed.

Cash and bank balances increase from RMB 185.3 million to RMB 237.4 million due mainly to the increase in short-term bank loans.

Current liabilities

As at 30 September 2013, total current liabilities were RMB 530.0 million, an increase of 30% (or RMB 122.6 million) compared to RMB 407.4 million as at 31 December 2012. This was mainly attributable to the increase in bills payable to banks, short-term bank loans, bank overdraft and amount due to a director. The increase was offset by the decrease in trade payables, other payables and accruals.

Trade payables decrease due to the increase in usage of bills payable in 9M2013.

Other payables and accruals decreased due to the decrease in advances received from customers.

Bills payable to banks increased due mainly to the introduction of using bills payable for the Zippers segment so as to maintain the cash on hand.

Short-term bank loans and bank overdraft increased due to a new short-term bank loan and banking facilities obtained from China CITIC Bank and Hang Seng Bank, please refer to page 3 for further information.

The increase of amount due to a Director was due to funds contributed by Mr Hong Qing Liang for the Group's Xiamen headquarter construction project. The construction costs were paid by Mr Hong from his personal bank account in Hong Kong first and reimbursed by the Company later. This arrangement was undertaken as the local government of Xiamen Island will impose an interest tax on all monies transferred from other locations within the PRC. Remittance from Hong Kong and other foreign countries is exempted from such tax.

CASH FLOW

Operating activities

Net cash flows generated from operating activities in 9M2013 amounted to RMB 10.5 million compared to RMB 30.2 million. This was due mainly to the increase in prepayments, inventories, trade and other receivables and increase in bills payables and amount due to a director.

Net cash flows used in operating activities in 3Q2013 amounted to RMB 12.2 million while net cash flows generated from operating activities in 3Q2012 amounted to RMB 71.6 million. This was due mainly to increase in prepayments, trade and other receivables.

Investing activities

Net cash flows used in investing activities in 9M2013 amounted to RMB 42.1 million compared to RMB 99.2 million in 9M2012, and in 3Q2013 amounted to RMB 8.4 million compared to RMB 15.0 million in 3Q2012, was due to the decrease in purchase of property, plant and equipment.

Financing activities

Net cash flows generated from financing activities in 9M2013 amounted to RMB 68.6 million compared to RMB 4.0 million in 9M2012, and in 3Q2013 amounted to RMB 5.7 million compared to RMB 9.4 million, was due mainly to a new short-term bank loans and banking facilities obtained from China CITIC Bank and Hang Seng Bank, please refer to page 3 for further information.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The performance for 3Q2013 and 9M2013 is in line with the commentary made in item 10 of the Company's results announcement dated 13 August 2013.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

For the nine months ended 30 September 2013, the Group continued to operate under a highly competitive and challenging environment as the zipper industry in the PRC faces intense competition with lower profit margins. Apart from the challenging and competitive business environment, the Group also faces weak demand for zippers as most of its customers still hold a high level of inventories in their warehouses. As such, the Group had to lower its selling prices to retain customers and attempt to increase sales orders.

The average utilization rates of the Group's production facilities in 9M2013 for zipper chains and zipper sliders were approximately 86% and 68% respectively.

The Group expects the zipper industry to remain highly challenging and competitive and does not expect the business environment to improve considerably for the next twelve months. The Group expects the continuation of the slowdown of economic growth in the PRC, uncertainties for export sales, as well as cost pressures arising from rising production costs and labour costs. These factors will affect the Group's operating outlook for the next twelve months.

The Group will strive to enhance its operational efficiency of its plants through automation of its production processes, so as to mitigate the impact of weak demand to the Group's gross profit margins. The Group will also continue to exercise tight control on the administrative expenses and strive to lower its production unit cost.
