ABOUT THE REPORT

Reporting Boundary

As a guide, this report covers operations and all subsidiaries for which Fuxing China Group Limited (“Fuxing” or together with its subsidiaries, the “Group”) has management control, unless otherwise stated. It seeks to prove an overview of our approach, practices, commitment, and performance of the Group’s material Environmental, Social and Governance (“ESG”) topics. The report covers the sustainability performance of the Group’s substantial operations in the People’s Republic of China (“PRC”) from 1 January 2021 to 31 December 2021 (“FY2021”).

Reporting Period & Standard

The reporting period is the same as the financial year of the Group (1 January 2021 to 31 December 2021) and will be published annually in accordance with Singapore Exchange Limited (“SGX”) requirements.

This report was prepared in accordance with the Global Reporting Initiative (“GRI”) Standards – “Core” reporting requirements. The GRI Standards is the most widely used and internationally accepted sustainability reporting framework. A GRI Content Index at the end of the report specifies the location of the relevant disclosures.

Independent Assurance

The ESG performance data presented in the report have mainly been extracted from internal information systems and original records to ensure accuracy. The Group has not sought external assurance for this sustainability report but have relied on internal verification to ensure the accuracy of data.

FEEDBACK

We are fully committed to our stakeholders, and we welcome feedback on any aspect of our sustainability policies, processes, and performance.

Kindly address all feedback to oilinfxcg@gmail.com. Your feedback is vital to us in achieving our goals to build a sustainable and thriving business. As an attempt to promote environmental conservation, there will be no hard copies of this report.

BOARD STATEMENT ON SUSTAINABILITY

Fuxing is pleased to issue its fourth sustainability report prepared in accordance with the GRI Standards and in compliance with the SGX-ST guidelines on sustainability reporting.

The Group endeavours and is committed to continually consider material environmental, social and governance topics as part of our core business strategy. The report seeks to present an accurate account of our practices and performance in our mission to be a sustainable, responsible corporate body.

The Board of Directors (“Board”) and Senior Management (“Management”) remain committed to establishing and maintaining an effective Sustainability Management framework, which is supported by the underlying internal controls, risk management practices and reporting process put in place to ensure clear accountability. The Board evaluates and considers ESG risks and opportunities relevant to the Group during the formulation of overall business strategies, objectives, and performance measurements.

The Sustainability Reporting (“SR”) Committee supports the Management in identifying the type of ESG topics relevant to its day-to-day operations. Management then determines the materiality of the ESG topics based on the level of significance of impact, and influence on stakeholder values, and the achievement of the Group’s strategic objectives. The Board supports and approves the identification and assessment parameters of material ESG topics.

The ESG topics identified in this report have been reviewed by the Board and Management and are assessed to be material and relevant. The Board and Management shall continue to dedicate leadership and maintain a high standard of sustainability governance to drive continuous and long-term growth for all its stakeholders. The Group will continue to work towards a balanced disclosure on the management and monitoring of material ESG topics for continuous improvement.

ABOUT THE GROUP

Corporate Profile

Since its establishment in 1993, Fuxing has built up a credible track record and market reputation, having garnered over 20 awards in the past 15 years. Its proprietary “3F” brand has been named the “Symbolic Brand of China” by the First Chinese Well Known Brand Conference in 2006 and “PRC Top 10 Famous Zipper Brands” by the Hardware Association of the PRC in 2005.

In January 2007, Fuxing’s products were awarded the Intertek Eco-Certification, which allows the Group’s products to be sold in international markets. Today, the Group’s zipper products are exported to Australia, the United States of America, European Union, Russia, Saudi Arabia, Turkey, Korea, Thailand, Vietnam, Indonesia, and many other countries.

In 2008, the Group expanded its production facilities to Shanghai and Qingdao to develop new customer base and to be nearer to its existing customers there. More notably, in 2008, Fuxing was named one of the 200 companies in Forbes Asia’s Fourth Annual Best Under a Billion List, which focuses on Asia Pacific companies with under \$1 billion in sales.

All our products are certified under the Intertek Eco-Certification, which ensures that our zipper products are produced in accordance with the PRC zipper industry standards. To ensure continuous innovation in product quality and improved efficiency, the Group places strong emphasis on product and technical Research and Development (“R&D”).

The Group owns a research partnership with the Software Institute of Xiamen University, with the aim of enhancing production efficiencies and automation in the manufacturing of zipper products. As a testament of our strength in R&D, the Group’s R&D facility was verified as a “Fujian Provincial Level Enterprise Technology Centre” back in December 2006. Towards the end of 2009, the Group was also awarded the “New and High Technology Enterprise” by the Fujian Provincial Government. The Group currently own 12 utility patents and 1 design patent.

Vision

We aim to continuously seek business opportunities in line with our strategic growth and to deliver value to our customers and stakeholders as we continue to explore and expand our business operations.

Within the industry, we have also upheld a reputation for quality and high standards in our operations, as well as excellence in our operations management. With a diversified customer base of over 1600 customers in the PRC, our end products are used by renowned brands such as Anta, Septwolves, CBA Leisu, LiNing, 361o, Samsonite, Fujian Peak and Northpole China, in a wide variety of end-products such as apparels, shoes, bags and camping equipment.

Awards & Certification

As a group and across our subsidiaries, we have attained and maintained various awards and certifications, such as the following:

- Certification for ISO 9001: 2015 Quality Management Systems
- ISO 14001: 2015 Certification – Environmental Management Systems
- ISO 45001: 2018 Occupational Health & Safety
- Intertek: Global Recycled Standard 4.0 (GRS 4.0)
- Granted authorisation according to STANDARD 100 by OEKO-TEX® to use the STANDARD 100 by OEKO-TEX® mark, based on our test report SH001 187526.1

SR GOVERNANCE STRUCTURE

Sustainability is integrated into our business and embedded across various roles and functions. The SR Committee, chaired by Mr Hong Qing Liang, our Executive Chairman and Chief Executive Officer (“CEO”), comprises of specific working groups with senior management and board level representatives across our different business units. The SR committee focuses on formulating, implementing, and reviewing the Group’s sustainable policies and practices, sustainability development programs and initiatives. The Board reviews and oversees the management and monitoring of the material ESG topics and ensures that sustainability matters are considered as part of its business strategy and are in line with the Group’s strategic development.

STRATEGIC APPROACH FOR SUSTAINABILITY

Fuxing firmly believes that while our businesses are driven by earnings, our actions must also have a positive impact on the environment, employees, and all other stakeholders in our value chain. In FY2021, the Group reviewed and defined its approach to sustainability management, with the help of independent external consultants. We have reviewed our existing non-financial topics and concluded that the topics below are material to the sustainability of our financial performance and business operations.

1. Please refer to the Financial Statements in the Annual Report.

2. Please refer to the Corporate Governance section in the Annual Report for more details.

STAKEHOLDER ENGAGEMENT

The Group recognises that understanding the demands and concerns of its stakeholders is key to sustainable growth and that regular engagement with stakeholders helps us to better identify material areas of focus. The Group operates and maintains multiple communication channels and platforms to understand stakeholders’ requirements and feedback. In FY2021, the SR Committee, with the support of independent external consultants, have identified 4 main groups that form our key stakeholder groups, namely employees, customers, shareholder, and business partners (See Exhibit 2).

The material ESG topics were also reviewed by the Board and determined to be relevant. Moving forward, the SR Committee, supporting the Board in its oversight, will continue to review material ESG topics against the changing business environment, stakeholder opinions, and emerging global and local trends annually.

PROCUREMENT PRACTICE

The Group firmly believes that its suppliers and subcontractors as key business partners that can create positive economic impact, thus enhancing stakeholders' returns. In this respect, the Group maintains a stringent selection process in its vendor selection, which considers the vendors' past track records and adherence to occupational health and safety standards.

We have also developed procurement policies and guidelines, such as:

- Guidelines and procedures in selecting and evaluating vendors; and
- Code of conduct when dealing with vendors.

To ensure that only qualified suppliers are selected during supplier onboarding, new suppliers are assessed under stringent criteria. These include track records, financial strength as well as commitments towards high quality, health and safety standards and sustainability. As we consider sustainability to be one of the key factors that we look for when we are selecting a supplier, we evaluate the potential candidates based on their sustainability performance and practices. The Group also collaborates with partners and suppliers to redesign our product offerings to reduce the negative environmental impacts related to production and consumption.

All our suppliers are required to submit relevant environment certifications to demonstrate that they are licensed or certified and are operating in accordance with the law and regulations. Furthermore, we conduct random periodic inspections to ensure they are complying with the relevant laws and regulations. The Group carries out the necessary due diligence in their procurement process, so as not to compromise on quality or allow our suppliers to have any adverse impact on the environment.

The Group purchases a range of raw materials from its suppliers, with polyester and zinc alloy being our main raw materials. Purchases from local material suppliers accounted for 92% of the total purchases in FY2021 compared to 88% in FY2020. During the reporting period, the Group's raw material purchases amounted to RMB 346.7 million/ approximate SGD 73.5 million (FY2020: RMB 303.4 million/ approximate SGD 61.6 million).

We will continue to remain fully committed to continue procuring responsibly while generating positive economic and social benefits for the local community we operate in.

ENVIRONMENTAL

To address global issues of resource scarcity and a changing climate, we recognise the importance of integrating environmental considerations into the Group's business decisions. We are committed to understanding, managing, and minimizing our environmental footprint across our value chain, including our business operations, suppliers, and customers. Our environment efforts are largely focused on maximizing material utilisation and optimising energy consumption. We will continue to strengthen our expertise in the areas of environmental programs and be selective about the strategic initiatives that will yield a greater positive impact in the future.

ENVIRONMENTAL COMPLIANCE

Environmental compliance forms an integral part of the Group's sustainability philosophy. With increased pressure on corporations to be accountable for their environmental footprint and rising cost of natural resources, we endeavour to not just comply but also integrate the best sustainability practices across business operations to reduce adverse environmental impact on the ecosystem.

Over the years, the Group's operations continue to conform to local environmental laws and regulations. The Group maintains a zero-tolerance stance towards non-compliance and encourage our stakeholders to report any incidents via our established whistle blowing channels. All our employees are encouraged to be proactive and forthcoming in managing and reporting environmental related issues and complaints.

In FY2021, there were no incidents of non-compliance and penalties pertaining to environmental-related issues. The Board and Management continues to review and improve current environmental management system and practices and ensure that all our activities and operations comply with regulatory and customers' requirements. It is of utmost importance to the Group that we maintain this unblemished record.

Moving Forward

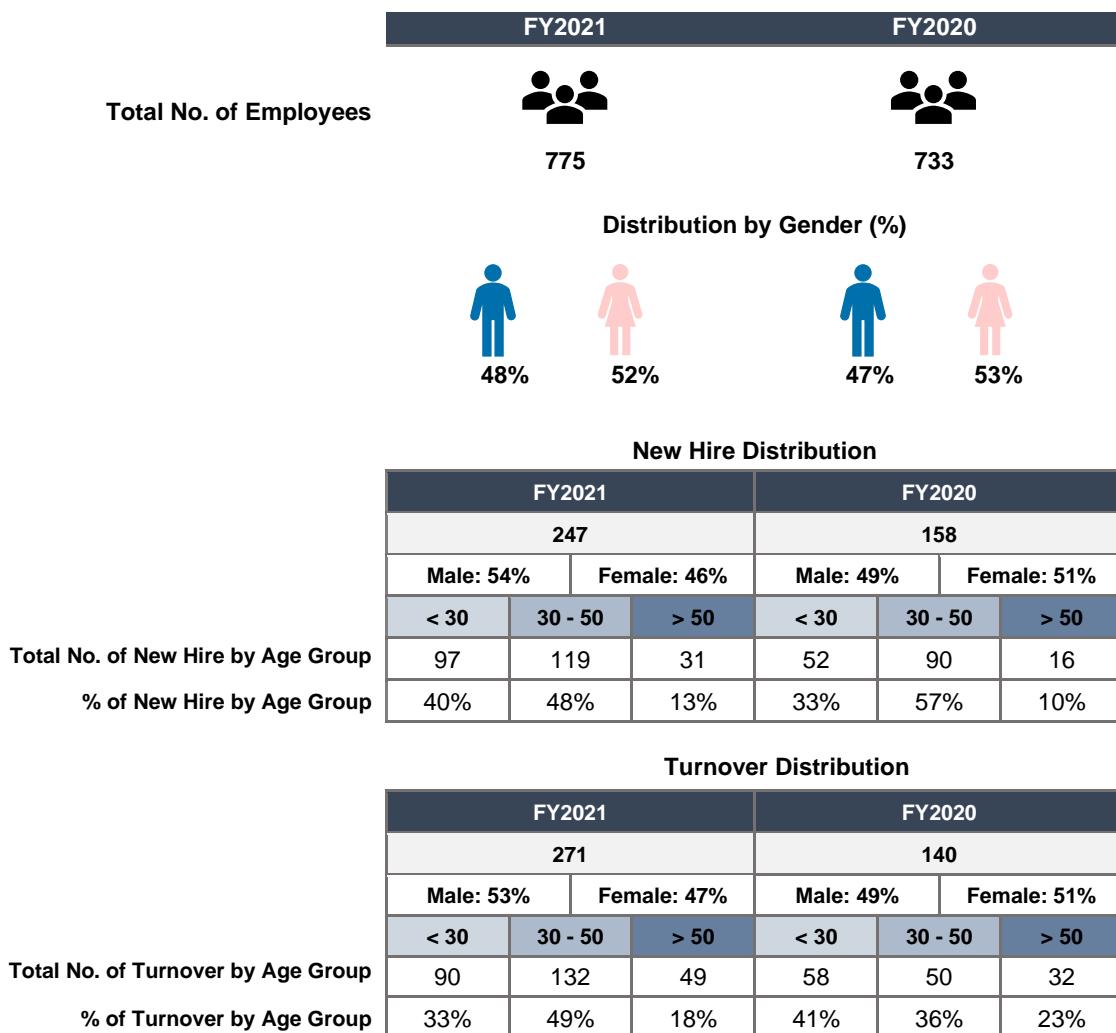

To maintain the highest standard of environmental compliance, the Management will continue to review and improve current environmental management system and practices and ensure that all our activities and operations comply with existing regulatory requirements.

SOCIAL

EMPLOYMENT

Our employees are one of our most valuable assets and the Group believes in and is committed to implementing fair employment practices, upholding human rights principles, and investing in developing and training our people.

As of 31 December 2021, we have a total of 775 fulltime employees. In general, the Group has maintained a strong and healthy workforce despite the relatively high turnover rate which is inherent in the manufacturing industry, mainly due to frontline manufacturing workers. Employment numbers for high-skilled positions remains consistent, with our key management personnel remaining unchanged in FY2021.

We strive to foster an inclusive and performance driven work environment to attract, retain and develop our talents. As an equal opportunity employer, the Group has instituted a fair system to ensure equal opportunities and non-preferential treatment for all employees. There is no preference or prejudice towards religion, age, ethnicity, any physical disability, or gender. Employees are required to observe and adhere to all relevant policies and practices. The Group makes a conscious effort to maintain diversity in the middle management, to generate creativity

and innovation and improve the organization's culture. There were no reported incidents of discrimination raised by our employees in FY2021.

The Group also has an open-door policy where employees are encouraged to speak-up or report grievances directly to their superior, head of department, human resource department, chief executive officer and/or independent directors. This is to reinforce our commitment to our employees to provide them with a workplace that is healthy, safe, and secure. Across our business segments, there were no workplace grievance cases reported in FY2021.

Employee Remuneration and Benefit

The Group recognises the valuable contribution of all employees and strongly believes in fair remuneration and sets packages which are competitive and sufficient to attract, retain and motivate personnel. In setting remuneration packages, the Group considers regulatory requirements, salary, and employment conditions by benchmarking against companies within the same industry. In addition to the competitive remuneration offered, we continue to maintain our list of employee benefits including, but not limited to the following:

Employment Benefits	Descriptions
Life insurance	If our employees become critically ill or permanently disabled, their loved ones will receive a sum of money to provide them with financial protection and coverage against risks.
Medical insurance	Employees are reimbursed for visits to the General Practitioners and dentist, which are covered under the medical insurance.
Disability insurance	All our employees are covered under personal accident insurance and work-related injury. For instance, the organization will reimburse any rehabilitation costs or monthly pay-outs for each case of disability.
Maternity leave	Eligible female employees are entitled to maternity leave when applicable.
Retirement provision	For employees qualified for pension approaching the retirement age, government will provide them with monthly support during their retirement.

The Group is in full compliance with local labour regulations across our operations, as well as minimum wage laws, where such laws exist. Being in an industry that is largely labour-intensive, we are dedicated to constantly reviewing our employment policies, benefits, and remuneration practices to ensure compliance with the updated employment laws, to keep up with the best industry practices to provide the optimal working conditions for our people. In FY2021, the Group had a return-to-work rate of 100% for employees who have taken parental leave. The Group will continually work towards building a pro-parent workplace through enhancing our Group welfare practices and culture.

The Group continually cultivates a transparent and inclusive environment for all employees, as well as ensures a top-down approach to promote fair and ethical business dealings. Fuxing maintains its zero-tolerance stance on unethical labour practices such as child labour, forced labour, slavery, and human trafficking throughout our organisation.

TRAINING & DEVELOPMENTS

The Group recognises that employees need to stay informed and be updated in their skill sets in the ever-changing work environment.

To encourage and support our employees to hone their skills and develop a fulfilling career, both on-the-job and ad-hoc trainings are made available to our employees. Employees are encouraged to attend courses which are relevant to their respective job scopes.

	FY2021	FY 2020
Average Hours of Training Per Employee	 ~ 2.6 hours	 ~ 2.6 hours

Programmes for Upgrading Employee Skills and Transition Assistance

The Group is committed to allocate budget and plan skills upgrading to equip employees to meet strategic targets of the Group. We believe that more skilled employees enhance Fuxing's human capital and contribute to employees' satisfaction, which will then enhance overall performance.

Training sessions undertaken to upgrade and educate employee's technical skills and workplace safety skills across different mode of operations includes:

- Quality Management Training
- Fire Drill and Demonstration Exercise
- Safety Production Training
- Marketing Training

Performance and Career Development Review

Performance and career development review of employees should be performed during the annual performance appraisal process. This process allows two-way communication and engagement between supervisors and subordinates to assess the performance of the employee. Upon completion of the appraisal process, consideration of career advancement such as promotion; quantum of salary increments, and annual variable bonus will be determined based on the performance appraisal results. Employees are assessed and remunerated fairly based on their experience, qualifications, and performance.

In FY2021, 70% of employees had performance appraisals and 32% of employees had career development reviews depending on types of positions held and work requirements. (FY2020: *No performance appraisal process conducted due to loss from operation during the year RMB 130 million / approximate SGD 26.4 million.*)

The Group shall continue to provide training and education opportunities through development programmes wherever applicable and promote a conducive corporate environment where everyone could achieve their potential.

OCCUPATIONAL HEALTH & SAFETY

Safety is an integral part of our business, and a key focus area for our Board and Management. We take pride in building a safe, conducive, and healthy workplace as our commitment to developing our people.

Being in a largely labour-intensive operation, we regard workplace safety with utmost importance and recognise our duty of care to account for the safety and health of each of our employees. We are constantly striving to build a safe and conducive workplace by ensuring that our Group complies with all relevant safety and environmental legislation, with the aim of minimizing the likelihood and impact of any possible hazardous occurrence. The Group has developed a list of protocols and precautions for workers, to ensure that their safety is fully covered in all areas of work.

Occupational Health & Safety Management Framework

Health & Safety System Aligned to That of
OHSAS 18001:2007

Safety Committee Oversight

To facilitate the physical supervision of the workplace safety, and the relaying of workplace safety and health ("WSH") related messages; we have established a Safety Committee. Collectively as a Group, the Safety Committee is headed by a General Manager, and comprises 3 Production Supervisors and 17 Head of Departments ("HODs").

The Safety Committee oversees the subsidiaries' operations to ensure that safety standards are always upheld and are in line with industry leading practices. The role and responsibilities of the Safety Committee includes reviewing, effectively implementing and reinforcing safety standards and regulations to ensure all areas of safety are adequately covered. The Committee members meet on a regular basis to review safety inspection results, infrastructures, and incidents, as well as to coordinate and organise safety-related activities.

The Group seeks to learn from past mistakes and strive to prevent similar incidents from recurring. All near-miss incidents and accidents would be promptly reported to the Safety Committee, which will further provide timely incident analysis briefings to the employees. These safety briefings aim to strengthen the safety awareness of employees, and to remind them of the established safety measures, precautions, and safety protocols to prevent similar incidents from happening.

Workplace Health & Safety Performance

Category	FY2021	FY2020
Death or Total Permanent Disabilities	0	0
Occupational Injury and Disease	0	0

In FY2021, there were no incidents of fatalities across Fuxing's business operations. The Group strives to continue to maintain its health & safety standards and continuous improvement in its Operational Health and Safety processes and performance. Moving forward, in order to facilitate the effectiveness of the supervision of workplace safety, the Group plans to have more ordinary workers join the Safety Committee to contribute to feedbacks and suggestions on potential areas that may have lapsed in safety protocol, which would enable us to further improve our safety framework.

In addition, Fuxing adheres to the safety measures issued by various advisories and guidance issued by the authorities pertaining to Covid-19 to safeguard the health and safety of our employees, customers, and stakeholders.

GOVERNANCE

ANTI-CORRUPTION

Fuxing is committed to uphold the highest standards of corporate governance and business integrity across its business activities, which are essential for the long-term viability of the Group's operations and the enhancement of shareholder value. The Board undertakes to investigate complaints of suspected fraud in an objective manner and has put in place a whistle-blowing policy and procedures. This provides employees with well-defined and accessible channels within the Group, including a direct channel to the Audit Committee, for reporting suspected bribery, corruption, dishonest practices, or other similar matters.

The policy aims to encourage the reporting of such matters in good faith, with the confidence that employees making such reports will be treated fairly and, to the extent possible, be protected from reprisal. The policy and its effectiveness will be reviewed by the Audit Committee periodically, with recommendations regarding updates or amendments, if any, to be made to the Board as required. In FY2021, there were no incidents of regulatory non-compliance across Fuxing's business operations. There were also no reported incidents pertaining to whistleblowing for this reporting period under review. The Group continues to work towards reinforcing a full compliance culture.

Moving Forward

The Audit Committee continues to support the Board in its oversight of anti-corruption and is responsible for driving Fuxing's focus on implementing effective compliance and governance systems. At an operational level, the respective departments within the Group continue to be responsible for the identification and self-assessment of the adequacy and effectiveness of mitigating measures, and manage their financial, operational, information technology, compliance, and reputational related risks.

Please refer to the Corporate Governance section in the Annual Report for more information.
